

TUB GRINDERS

H-800 TUB GRINDER

Introducing the New Tub Grinder from Haybuster

This is the smallest, most economical tub grinder offered in the line of proven hay grinders from Haybuster. The H-800 grinds high moisture corn and hay efficiently and consistently. With horsepower requirements of 75 to 130 hp, this versatile grinder will take care of your grinding needs.

H-800 TUB GRINDER

Durable belt drive systems to transition PTO power to the blower and hammermill.

11-bar mill grate for ease in grinding wet, tough hay without slugging the grinder. Max. Bale Size is 5' long x 5' diameter (1.52 m x 1.52 m).

Many screen size options for precision particle sizing.

Feed discharges from grinder through a fan blower system with hydraulic adjustment vertically and 360 rotation for ease in feed placement.

Hydraulic flow meter for manual control of tub speed and tractor load.

Optional high-capacity grain grinding hopper that handles high moisture and dry corn.
